Research

Activities 2013

Kit Johnstone Tyabandha, Ph.D.

I applied to lecturing and research positions at universities in January to Aberdeen (BUS002AX, Economics) (ENG 004A, Engineering), Dundee (ASS0129, Arts, Science and Engineering) (LS0260, Life Science), Edinburgh (8403, Mathematics) (8602, Mathematics), Glasgow (2940, Biostatistics) (3011, Mechanical Engineering) (3106, Neuroscience), Kent (STM0293, Statistics), Manchester (EPS02098) (EPS02124, Computer Science) (HUM02071, Environmental Economics), Newcastle (B564A SACS, Multimedia Journalism) (D1172A, Structural Engineering, Civil Engineering), Stirling (SCH00148) (SCH00152, Economics); in February to Aberdeen (GEO008A, Geology and Petroleum Geology), Commonwealth Games 2014, Glasgow (3073, Sonic and Audio Visual Practices, Arts) (3186, Religion Conflict and Transition in Eastern Religion) (3202, Computer Science) (3204, Computer Science) (3282, Fuel Cells, Chemistry) (3284, Engineering) (M00510, Computational Biology), Manchester (E&PS00540, Future Energy Network) (E&PS00810, Thermal Hydraulics) (EPS01669, Probabilities) (EPS02181, Water Engineering) (HUM02340, Political Theory) (M&HS01566, Medical Statistics) (M&HS02145, Speech and Language Therapy); in March to Edinburgh (10342, Mathematics) (10983, Linguistics and English) (11405, Agile Tomography, Engineering) (11602, English), Glasgow (3254, Electronic Engineering) (3288, Engineering) (3443, Engineering) (3463, Bioinformatics and Software Development) (E20234, Transportation Engineering), Oxford (106976, Machine Learning, Engineering) (107082, Primes and Sieves) (107151, Atmosphere, Ocean and Planets) (107179, Atmosphere, Ocean and Planetary Physics) (107184, Solid Mechanics and Materials, Engineering) (DF13EXT, Mechanical Engineering) (DF13 WAD, Electrical Engineering), SOAS (512, Political Ecology of Development); in April to Bath (CP 1620, Electrical Machines and Drives), Bristol (ACAD100278, Applied Mathematics), Durham (2483, Energy) (2508, Statistics and Climate Impacts) (2556, Observational Astronomy) (2576, Applied Mathematics and Numerical Analysis), Leeds (ARAML0088, Film Studies) (ARTML0090, Translation Studies) (MAPMA0048, Actuary and Financial Mathematics) (MAPMA0049, Algebra) (MAPMA0054, Pure Mathematics), Nottingham (CE11712A, Art History) (LE11108A, Music), Nottingham Trent (D0661, Architectural Technology and Environmental Science), Reading (LE13012, Applied Linguistics) (LE13013, Economics), SOAS (513, Gender in Development), Warwick (70106-033, Statistics); in May to St Andrews (SB193212, Physics and Astronomy), Cardiff (992BR, Geography), East Anglia (ATR1133, Director, British Centre of Translation), Edinburgh (13746, Environmental Engineering), Exeter (P42959, Renewable Energy) (P44302, Astrophysics), Hariot-Watt (601/13, Laser Engineering), Hull (FA0004, Applied Linguistics and TESOL) (FA0005, Applied Linguistics and TESOL), University College London (1325651, Polar Observation Modelling) (1326096, Philosophy of Language) (1334279, Greek and Latin), Manchester (EPS-01139, Geotechnical Engineering) (EPS-02654, Management of Projects) (HUM-02678, Enterprise, Entrepreneurship and Innovation) (HUM-02793, Linguistics), Nottingham Trent (S1025, Computer Science), Plymouth (A3229, Engineering Geology), Southampton (216313WF, Space Physics) (222913AT, Water Engineering), Stirling (SCH00216, Economics); in June to Birmingham (19376, Mechanical Engineering), Bristol (ACAD100340, Energy Management, Energy Harvesting and Wireless Power) (ACAD100351, Heilbronn Fellow) (ACAD100356, Applied Mathematics), Cambridge (GF23502, ZZ23502, Theology and Natural Science), Cardiff (981BR, Research and Knowledge Transfer) (1015BR, Water Engineering), Cranfield (1409, System Engineering), Goldsmiths (COM000039, Data Science), Lancaster (A723, Engineering), University College London (1332756, Environmental Engineering), London School of Economics (Empirical Analysis and Climate Change Policies), St Mary's (L/0501/143/2013, Theology, Bible and Religious Studies), Sussex (136, Technology and Innovation in Development), York (2991, Phonetics and Phonology); in July to Aberystwyth (GE·13·06, Hydraulic Flood Modelling, COBWEB Citizen Observation Web), St Andrews (ML1152, Physics and Astronomy), Bangor (BU00255, Economics and Finance), Bath Spa (06/13/1708, Human Geography), Brighton (SM3096, Engineering) (SM3097, Computer Science), Chester (HRMS/12246, Computer Science), Cranfield (1421, Radar), Derby (LB0024, Engineering), Edinburgh (14963, Japanese), Glasgow Caledonian (HR1626, Blended Learning) (HR1629, Journalism), Greenwich (299-E, Graphical Design), Kent (HUM0426, Linguistics), Lancaster (A712, Computer Science) (A713, Space Physics), Leicester (AHL00263, Translation Studies) (SEN00378, Mechanical Engineering), Loughborough (REQ13345, Gas Turbine Aerothermal Engineering), Middlesex (LIB598, Numeracy Support, Mathematics and Statistics), Newcastle (D1291A, Chemical Engineering), Northampton (UN1133, IT Security Analysis), Northumbria (ADS12/24, TESOL and Applied Linguistics) (ADS12/26, Performing Arts Practice and Theory), Open University (8144,

Mathematics, Computer and Technology), Plymouth (A3285, Technology and Engineering Teaching) (A3286, Teaching) (A3307, Pure Mathematics), Surrey (9484, Economics), Sussex (181, Computer Science) (182, Neural Computation) (183, Machine Learning and Statistical Natural Language Processing) (193, Energy Policy) (251, Digital Media Practice), Swansea (AC00478, Translation), Ulster (1343716, Computational Biology), University College Dublin (6023, Philosophy), West England (1342706, Construction Project Management), Western Scotland (13/144, Intelligent Systems) (13/145, Intelligent Systems), Westminster (50011900, Linux VM Ware Administration and Development), York St John (ILS/LIS42W, Computer Science); in August to Cambridge (JS2840835, Climate Change, Mott MacDonald), Dundee (Deciphering Cellular Roles, MRC Protein Phosphorylation), Glasgow (5183, Engineering) (5185, Engineering), Imperial College (EN20130276TT, Human Connectome Project) (EN20130279JB, Computing) (EN20130280TT, High Performance Computing) (EN20130304AS, Electrical Engineering) (NS2013172SC, Statistics), (Job Search) (JS3202521, Electronics Engineering) (JS3202959, Computational Biology), Manchester (E&PS03058, Corrosion Protection) (M&HS03121, Enterprise), Oxford (JS2282977, Catalyst Science) (JS3166339, Oxford, Wellcome Trust), Strathclyde (136/2013, Humanities); in September to Aberdeen (GE0214R, Physical Science, Geoscience and Geology), Hariot Watt (Global Platform Research), MedImmune (7731, Protein Science), Nottingham (Applied Mathematics, Malaysia), Orkney Island Council (ORK002159, Information Technology), Seoul National University (Engineering), Strathclyde (133/2013, Science) (134/2013, Engineering) (135/2013, Business) (139/2013, Education) (143/2013, Computer and Life Science), University of Arts London (ADZ/122521331), West England (JS3497917, Computer Science and Creative Technology); in October to Aberdeen (JS3443499, Film and Visual Culture, Language and Literature), City of Glasgow College (JS3440650, Maritime Operation Ship Simulation) (JS3621690, Mechanical Engineering), Cardiff (1501BR, Computational and Digital Social Science), Cranfield (JS3791905, Gas Turbine and Rotating Equipment Technology) (JS3813188, Renewable Energy), East Kent College (JS4173925, Mathematics), Edinburgh (JS3838352, Probability and Financial Mathematics), Edinburgh Napier (060/SF, Software Engineering and Games Technology), Glyndwr (JS2917756, English), Hertsfordshire (JS3667120, History and Theory of Digital Animation), Leeds (JS3499498, English), Minister of Defence PPPA (JS4274785, Information Systems and Security), Nottingham (ENG13990, Foundation Programme), Plymouth (A3506, Software Engineering), Roehampton (JS4172955, Education), Scottish Water (JS3627131, Data Science), Sheffield (JS4212992, Chemical Engineering), Southampton (JS3927609, Statistics), Staffordshire (JS3876263, Mechatronics and Electromechanics), Swansea (JS3587840, Research Methods), Western Scotland (JS3721457, Intelligent Systems); in November to Aberdeen (NCS006A, Pure and Applied Mathematics) (JS4526956, Mathematics), St Andrews (ME3920, Old Testament and Hebrew Bible) (ML4251, Galaxy Evolution) (SB1409, Energy Materials) (SB4401, Geographical Information System) (SB4421, Statistics), Bournemouth (JS4602840, Games Programming), Cranfield (1499, Clean Energy Technology) (JS4463469, Aerodynamics), Derby (3498, Software Engineering) (JS4807359, Computer Security), Edinburgh (022557, Medical Image Analysis), Glasgow Caledonian (HR1677, Network Engineering and Security), Keele (AC13/49, Software Engineering Project Management), Liverpool John Moores (643, Computing and Mathematical Science), Loughborough (REQ13187, Fluid Mechanics), Ministry of Defence PPPA (JS4882703, ICT), North Warwickshire and Hinckley College (JS3582458, Electronic Engineering), Oxford Brookes (414/18883/ED, Motorsport and Automative Engineering), Portsmouth (10010317, Applied Mathematics), Robert Gordon (JS4356314, Electrical and Electronics Engineering), Southampton (305313WF, Astronomy), South Cheshire College of Further Education (13451113, Electronics Engineering), South Tyneside (JS2315742, Marine School); in December to St Andrews (ME1121, Systematic Theology) (ML4251, Galaxy Evolution), Bristol (ACAD1006501, Composite Mechanics), City College of Glasgow (JS5252491, Electrical Engineering), Durham (JS5135860, Statistics), Liverpool (JS5173155, Industrial Design), Manchester Metropolitan (JS5025326, Computer Science) (JS5352855, Electronical Engineering), Ministry of Defence PPPA (JS4883246, Information Systems), Nottingham (UN1250, Architectural Technology), Nottingham Trent (B1050, Economics), Oxford Brookes (154/16730/PS, English for Academics), Portsmouth (JS5106757, Petroleum Engineering) (JS5136828, Mathematics), Plymouth (JS5134193, Mathematics Education), Robert Gordon (C40555, Electrical and Electronic Engineering), Sheffield (UOS007754, Environmental Design), SOAS (Curation and Museology of Asian Art) (601, Chair of South-East Asian Art), West England (JS4957595, Mathematics Supports), Western College of Scotland (JS5251454, Computing), York (JS5064403, Organisation Behaviour and Theory).

In January I registered on 15^{th} to Government Gateway at their website, then on 29^{th} updated my profile there to allow DWP to look at my activities on my Job Search account. The application to Commonwealth Games 2014 I went no further than the first interview on 24^{th} April because I was unwilling to let them photocopy my passport, there was no need to put your personal details at risk only in order to volunteer. In February I was sent to Working Links, they bullied me there by a few

of their staffs; the last time I was there was in November after which I wrote to them about the fact, I received an anonymous call purportedly to be from them telling me to expect a letter which never came. I hope the ptho cultists would not impersonate me at Working Links in order to obtain money from the government. I also hoped they would not have done so to obtain glasses, the last pair I had was from the NHS back in 1995. That first time I was there I completed a questionnaire for them, of which I later asked for but never received a copy. In it I mentioned that given some reasonably sufficient time I could teach most subjects in Language, Mathematics, or Engineering. They had been more of a hinder than a help, to say the least. In March I gave them a CV. I attended a small job fair by Working Links in their Glasgow office on 4^{th} October, and attended their Aim High session on 24^{th} October. In October I met with some past graduates from Chulalongkorn University, Tokyo Institute of Technology and UMIST. In January I introduced myself to a professor at Physics and Astronomy, University of Glasgow, about a position in Sensor Systems (E20230), then on *5:th* February I sent to him by email a copy of my CV and on the following day applied to the position. On 21^{th} November I wrote an email to a professor at Edinburgh University about a job I had applied in Probability and Financial Mathematics. All these applications had never amounted to anything, it could have been interference from the ptho cultists, for example stealing replying emails from universities when the results were successful. In February I sent my CV to lecturers I knew at Chulalongkorn University, from this time on I gave them as my referees instead of ministers and people I knew at Christian organisations here in Glasgow. In March I prospected to Oxford a copy of my CV. On 5^{th} June I registered online to the London Graduate Fair of 19 and 20 the same month, and on 19^{th} attended the fair in London. On 5^{th} November I attended a job fair on Banking and Finance at University of Glasgow, I also attended one workshop there. I attended a Science Fair 2013 at University of Glasgow on 20^{th} November. The Glasgow University Library had been giving me trouble visiting them, a problem which I thought came from a devious lecturer of Sociology at Stow College who graduated from University of Glasgow, who saw plagiarism as being no crime. I thought she was also behind the police suspecting me for urinating on the street, and for Stow wrongly wrote to me that I failed the course by Marie Trust which she was a lecturer, whereas I opted out myself after having already told people concerned at Marie Trust to that effect. I met my former supervisor of Tokyo Institute of Technology on 9^{th} September, who was now at Tokyo Denki University in Tokyo. I told him about my decision to switch my research for Japan from Control Systems to Language Engineering. There was a Christmas party I attended on 16^{th} December at Glasgow Korean Church. On 25^{th} December night I read Luke 2:27–33 in Lạnna at St Columba's Gaelic Church. I went to a Vaughan Williams concert and talk on 10^{th} November, and on 12^{th} November to an Anglican evensong. On 17^{th} November I went to a BBC concert of Britten's *Noye's Fludde* at Glasgow City Hall, where all the audience participated in the singing of the chorus. I attended a public lecture at University of Glasgow on 3^{rd} October on Welfare State, then another one on 29^{th} October at their Hunterian Museum on geological exploration of Somalia. I attended a talk on Mary Sleassor and Africa on 29^{th} October at Jurys Inn organised by CRER. I attended a talk on Spanish middle age plays at University of Glasgow on 7^{th} November, which was about digitisation of manuscripts. On 12^{th} November I attended a talk on Gaelic language, possibly at University of Glasgow, there was also there a talk on Life Science by Life Technologies. On 13^{th} November also at University of Glasgow was a talk by a software engineer of Facebook on software engineering and security, I mentioned to him afterwards how I had recently discovered that two Hotmail addresses of mine had been impersonated to create accounts at Facebook, that evening I attended belatedly a debate on modern slavery in an event celebrating Dr Livingstone and Christian mission at Glasgow Cathedral. I later wrote an email to another research address of my own about those identity frauds, addressing myself unintentionally in a second person pronoun. That latter address, which I had never used for any other thing than purely academic business, and which was never in touch with anybody else, was targeted and impersonated on a dodgy site which I later learnt had been linked to some drug's money in the past. I attended on 19^{th} November a Gaelic event for producers of film in Gaelic at CCA. I attended a seminar by CRER on ethnicity on *22:nd* November, attended a poetry event in Panjabi on 24^{th} November. I saw the information on the latter at Gurdwara to where I sometime went to be informed of events in the Indian community for my Language research. I attended a lecture on Rhetoric and Digital Media at University of Glasgow on 27^{th} November, which was about citizen journalism. There was a seminar on 27^{th} November on Post-Soviet Union's states at a Slavic centre of University of Glasgow, and then another seminar on 28^{th} November on Portuguese literature of Medieval Period at the university's library, on the top floor by a literary group. On 5^{th} December I was refused entry into the library of University of Glasgow, I wanted to attend a seminar there on European Literature on the top floor again. I thought these whole business of librarian and library staffs bullying me was due to the influence of that influential lecturer at Stow who was an alumna of this university. I attended a debate at Glasgow Caledonian University by Humanist Society on 6^{th} December, the topic was religion and

education. The light of God it seemed had not yet reached humanists, let alone that of Christ. During December I began to write a textbook on Japanese grammar and a thesis on Language Engineering, there had been a breakthrough during Christmas and I had thereafter decided the direction of my Language Engineering research, and had also written about it to my former supervisor in Japan.
